

## Golden Eye Rose

*Rosa 'Golden Eye'*

Height: 5 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 4a

Group/Class: Easy Elegance Rose

### Description:

A stunning eye-catching shrub rose with luminescent reddish orange petals with a bright golden eye that shines above the deep green foliage; multiple clusters of blossoms come up constantly creating a tremendous effect that is hard to rival

### Ornamental Features

Golden Eye Rose is clothed in stunning fragrant crimson flowers with gold eyes at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed in late fall.

### Landscape Attributes

Golden Eye Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Golden Eye Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

### **Planting & Growing**

Golden Eye Rose will grow to be about 5 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
