

## Dharuma Hydrangea

*Hydrangea paniculata* 'Dharuma'

Height: 5 feet

Spread: 4 feet

Sunlight: ○ ●

Hardiness Zone: 3b

### Description:

A showy early mid-summer blooming shrub with cone-shaped panicles of mixed sterile and fertile white flowers which turn pink in late summer to fall; somewhat coarse in appearance, regular pruning recommended; needs slightly acidic well-drained soil

### Ornamental Features

Dharuma Hydrangea features bold conical white flowers at the ends of the branches from mid summer to early fall. The flowers are excellent for cutting. It has green deciduous foliage. The pointy leaves do not develop any appreciable fall color.

### Landscape Attributes

Dharuma Hydrangea is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its relatively coarse texture can be used to stand it apart from other landscape plants with finer foliage.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Dharuma Hydrangea is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use

### Planting & Growing

Dharuma Hydrangea will grow to be about 5 feet tall at maturity, with a spread of 4 feet. It tends to be a little leggy, with a typical clearance of 2 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type, but has a definite preference for acidic soils. It is highly tolerant of urban pollution and will even thrive in inner city environments. Consider applying a thick mulch around the root zone in winter to protect it in exposed locations or colder microclimates. This is a selected variety of a species not originally from North America.
